Optasia Graphic Designs

Package Two: *Advanced Layout*

This advanced layout package is defined as specialized projects that may take five or more days to complete. Photographs may have to be taken and excessive artwork may have to be rendered. Clients will talk with the designer to go over the project and details. Clients who choose this package must have all documents spell-checked before passing any work onto the designer. No fault will come onto the designer for spelling errors in the original document.

All proofs will be checked by the client to ensure complete satisfaction before printing. Proofs are needed to check for accuracy in text, photographs, artwork, color, and overall design of the project and will be done by both the client and designer before printing.

Advanced Layout includes, but limited to:
Advanced Poster Design (8.5"x11" or 11"x17, for larger poster there is a cost difference.)
Exhibit/Tradeshow Booth Design
Packaging Design
Annual Reports
Book Design
Photography
Teaching

Cost is on a per project basis.
Advanced poster design is $200.00+
